

Dear Customers,

I would like to introduce myself as the Installation School Liaison Officer for MCAS Iwakuni, Japan. I serve as the link between military families, MCAS installation commander, local DoDEA schools, military agencies and the MCCA community. Assistance and services are extended to students that are educated by of home schools, virtual schools, off-base schools and the school lunch program.

The mission of the USMC School Liaison Program is to promote awareness of the unique educational needs of military connected children to include: developing, coordinating, and engaging in school and community partnership initiatives that will foster academic success. School Liaison Officers serve as the commander's subject matter expert for preK-12th grade education related matters, disciplinary matters, attendance matters, provide military families and students with school transition (inbound, on station & outgoing) options and academic support and resources, both on-and-off base.

During transitional planning, all families are encouraged to bring a sealed copy of their child(ren) school records, devote some time to pre-register their child(ren) online by using the below DoDEA website. Parents are welcome to forward any additional educational/certificates of achievement information that will assist us with assuring that their children are placed in the correct school, grade, and classroom. Also, please do not hesitate to utilize the information below to contact me with any uncertainties that may arise before, during and/or after you begin transitioning to Iwakuni, Japan or your arrival at your next duty station.

Respectfully,

Carr, Keith M.HR, CYSA

School Liaison Officer

MCAS Iwakuni, Japan
